

Tariff NK.select S Comprehensive Health Insurance

Version of December 2022

Essential Parts of the Tariff NK.select S

Out-patient medical treatment

We reimburse 100% of the costs when treated by a primary care physician or after referral to a specialist, otherwise 75% for

- out-patient medical treatment
- radiation diagnostics and radiotherapy

We reimburse 100% of the costs for

- rides and transports
- visual aids up to € 150
- out-patient preventive examination
- inoculations and travel vaccinations in accordance with STIKO recommendations

We reimburse 70% of the costs for

- psychotherapy

We reimburse 80% of the costs for

- medicines and dressings up to € 4,000 invoice amount, beyond that 100%; generics always 100%
- remedies according to the tariff List of Remedies up to € 4,000 invoice amount, beyond that 100%
- aids up to € 4,000 invoice amount, beyond that 100%

Spa treatment

We reimburse the costs according to the tariff (refer to out patient treatment) for a curative treatment at a spa, health resort or sanatorium.

Dental benefits

We reimburse 100% of the costs for

- dental treatment
- preventive dental treatment

We reimburse 70% of the costs for

- dentures and inlays
- orthodontics

There are maximum amounts for our benefit.

In-patient medical treatment

We reimburse 100% of the costs for

- multi-bed room
- treatment by a general practitioner
- services of a stationary midwife and/or maternity nurse who is in attendance
- rides and transports
- provision of accommodation and food in hospital for one parent when the child to be treated is not yet 16 years old

Additional benefits

- digital health applications
- co-insurance for one child up to the age of 1 free of charge
- the reimbursement for out-patient and dental checkups, inoculations and vaccinations is not counted towards the deductible/bonus and is not taken into account in the context of a premium refund in the event of no benefits being paid

Deductible/bonus

- The following deductibles shall apply per person for the tariff levels:
 - € 600 for the tariff level NK.select S 600
 - € 1,200 for the tariff level NK.select S 1200
 - € 3,000 for the tariff level NK.select S 3000 (for children and teenagers up to and including 20 years half)
- For the tariff level NK.select S Bonus, the insured person shall receive a monthly bonus of € 100, which shall be offset in the event of a benefit claim, i.e. up to € 1,200 shall then be deducted from the benefit (for children and teenagers up to and including 20 years half)

Part III of the General Terms and Conditions of Insurance

This tariff (Part III of the General Terms and Conditions of Insurance) only applies in conjunction with Part I (German standard conditions 2009 of the Association of Private Health Insurance [MB/KK 2009]) and Part II (tariff conditions [TB/KK 2013]) of the General Terms and Conditions of Insurance.

We explain the technical terms which are used in our conditions and are marked with a ➤ symbol at the end of this tariff.

I. Who can take out the insurance?

We are the Hallesche Krankenversicherung a.G. (insurer). People can be insured in this tariff who, at the commencement of the insurance, have a residence in Germany.

II. What do we reimburse?

1. What do we reimburse for out-patient ➤medical treatments?

1.1 How do we take account of the Fee Schedules when providing reimbursement for out-patient medical treatments?

Medical services are only reimbursable as set out in the ➤Fee Schedule for Physicians (GOÄ), subject to the maximum rates that are specified there (see Annex 1).

Services provided by midwives or male midwives are only reimbursable as set out in the respective applicable Official Fee Schedule for Midwives and Male Midwives.

Services which are provided by psychological psychotherapists and paediatric and youth psychotherapists are only reimbursable as set out in the Fee Schedule for psychological psychotherapists and paediatric and youth psychotherapists (GOP), subject to the maximum rates that are specified there (see Annex 1).

1.2 What do we reimburse when the insured person is treated by a doctor?

We reimburse the costs of

- consultations
- appointments
- treatments
- examinations
- home visits
- operations

- video consultations and video examinations and
- special services

The costs will be reimbursed according to II.1.23.

1.3 What do we reimburse in relation to ➤rides and ➤transports?

We reimburse 100% of the costs of rides and transports to and from the nearest suitable doctor or hospital when the insured person

- has had an ➤emergency,
- ➤is unable to walk,
- there receives a dialysis, deep radiation therapy or chemotherapy appointment or
- is operated on as an out-patient and cannot travel independently on the day of the operation for medical reasons.

If the insured person is taken to a hospital in an emergency on the instructions of the rescue control center, this is deemed to be the nearest suitable hospital.

We will only reimburse transport if the insured person, during the transport for medical reasons, needs

- specialist care or
- the special setting up of the means of transport owing to medical reasons.

1.4 What do we reimburse in relation to radiation diagnostics and radiotherapy?

We reimburse the costs for radiation diagnostics and radiotherapy according to II.1.23.

1.5 What do we reimburse in relation to >remedies?

We reimburse the costs of remedies which are included in our List of Remedies (see Annex 2), insofar as these are in each case reimbursable up to the maximum amounts stated in that list

- to 80% until the reimbursable costs have reached an annual invoice amount of € 4,000,
- beyond that to 100%

We reimburse the costs of the following remedies:

- physical therapy/movement-based exercises
- massages
- physiotherapeutic palliative care
- packs, hydrotherapy, baths
- inhalations
- cold treatment and heat treatment
- electrotherapy
- light therapy
- speech therapy
- ergotherapy (occupational therapy)
- podiatry
- nutritional therapy
- birth preparation/pregnancy gymnastics and postnatal gymnastics
- rehabilitation sport/functional training in groups

1.6 What do we reimburse for medicaments and dressings?

- We reimburse 100% of the costs of >generics.
- We reimburse 80% of the costs for other medicaments as generics and for dressings until the reimbursable costs have reached an annual invoice amount of € 4,000, and 100% beyond that.

1.7 What do we reimburse in relation to visual aids and refractive surgery?

We reimburse 100% of the costs of visual aids up to € 150.

Once we have provided reimbursement for visual aids, the insured person can have visual aids reimbursed again at the earliest 2 years after receiving it. If their visual acuity (sharpness of vision) changes by at least 0.5 dioptres, the insured person will receive reimbursement for visual aids sooner.

We do not reimburse the costs of surgical correction of refractive errors by refractive surgery, including pre- and post-treatment.

1.8 What do we reimburse for medical aids (with the exception of visual aids)?

1.8.1 We reimburse 80% of the costs of medical aids that are not obtained through the Medical Aids Service (see 1.8.2) up to an annual invoice amount of € 4,000, and 100% beyond that

- when they directly alleviate or compensate for disabilities or the consequences of illnesses or accidents (e.g. invalid carriages, prostheses),
- when the insured person needs them for therapeutic and diagnostic purposes (e.g. blood pressure monitors), or
- in order to stay alive (life-saving medical aids such as e.g. breathing aids).

The following are also considered medical aids

- the purchase and training of a guide dog,
- the use of a communication aid in accordance with the communication aid ordinance (e.g. sign language interpreter, written interpreter), if this is needed in order to be able to make use of the medical services insured under the tariff,
- the instruction, maintenance and repair of assistance aids or devices. However, we do not pay for any repairs of orthopaedic footwear.

1.8.2 We will reimburse 100% of the costs for aids whose invoice amount would exceed € 350 if purchased in advance, provided that

- the medical prescription is submitted to us before the aid is procured, and
- we are instructed to deliver the aid (loaned equipment or purchase) via our partners or suitable medical supply stores.

This shall also apply to reimbursable costs for aids below an invoice amount of € 350 in each case if multiple purchases of aids (e.g. stoma articles) become necessary within a calendar year.

If these conditions are met, we reimburse 100% of the costs even if we cannot have the aid delivered.

We do not pay from the outset for

- aids which the compulsory long-term care insurance must reimburse on their merits,
- aids which are part of fitness/wellness and/or recreational facilities,
- everyday personal effects and hygiene products (e.g. medical thermometers, anti-allergy bedding).

Aids which the insured person only needs for a certain period of time should be rented as a priority.

In general, our medical aid service always supports the insured person in selecting and purchasing or renting a suitable medical aid. If an aid costs more than € 350, then we therefore recommend that you submit the doctor's prescription to us in advance. Then we will be able to assist you to obtain this in most cases.

1.9 What do we reimburse in relation to out-patient preventive and checkup examinations?

We reimburse 100% of the costs for the following out-patient preventive and checkup examinations for the early detection of diseases, insofar as these have been accounted for in accordance with our list (see Annex 3):

- For men:
 - preventive urological examination
 - early detection of prostate cancer
 - examination of the abdominal aorta
- For women:
 - preventive gynecological cancer examination
 - chlamydia screening
 - mammography screening
 - pregnancy precautionary check-ups
- For men and women:
 - colorectal cancer screening
 - skin cancer screening
 - osteoporosis screening
 - early detection of cardiovascular diseases, diabetes
 - early detection of kidney disease
 - screening for Hepatitis B and C
- For children and teenagers:
 - Extended newborn screening
 - Cystic fibrosis screening
 - Hip screening
 - Hearing screening
 - Pulse oximetry screening for the detection of heart defects
 - Newborn initial examination U1
 - checkups for children/teenagers U2 to U12, J1 and J2

We also reimburse 100% of ►preventive medical examinations according to programmes introduced by law that are not listed in Annex 3.

Our reimbursement

- will not be offset against a bonus or existing deductibles (refer to III.1. and 2. of this tariff) and
- will not be taken into account in the context of a ►premium refund.

1.10 What do we reimburse for vaccinations?

We reimburse 100% of the costs when the vaccinations are recommended by the Standing Vaccination Commission at the Robert Koch Institute (STIKO) and insofar as these have been accounted for in accordance with our list (see Annex 3).

The cost of the vaccine is reimbursed as a drug according to II.1.6.

We do not reimburse any vaccination costs when they are required for business travel and the employer is responsible for providing them.

Our reimbursement

- will not be offset against a bonus or existing deductibles (refer to III.1. and 2. of this tariff) and
- will not be taken into account in the context of a ►premium refund.

1.11 What do we reimburse in relation to out-patient psychotherapy?

We reimburse 70% of the costs according to II.1.1 for out-patient psychotherapy.

1.12 What do we reimburse in relation to sociotherapy?

We reimburse 100% of the costs for sociotherapy. A claim exists for a maximum of 120 hours within 3 years per insured case.

This reimbursement presupposes that

- the insured person is suffering from a serious mental illness and is therefore unable to independently make use of medical services or medically prescribed services,
- the sociotherapy prevents or shortens treatment in hospital or treatment in hospital is necessary but not feasible and
- it is carried out by doctors of psychiatry or neurology or, after prescription by these doctors, by specialists in sociotherapy.

We reimburse the costs of using doctors' services according to II.1.1. We reimburse the costs of using services provided by sociotherapy specialists up to

the amount that statutory health insurance (GKV) would have to pay for such services if the insured person were insured under that insurance.

1.13 What do we reimburse in relation to midwives or male midwives?

We reimburse 100% of the costs for midwife assistance or assistance by male midwives according to II.1.1.

This includes, for example:

- maternity care
- antenatal care
- obstetrics
- postpartum care
- fees for home visits

In the case of a delivery in a facility that is run by midwives or male midwives (e.g. birth centre, midwife centre), we will reimburse the costs involved up to the level of costs that would have been incurred if the birth had taken place in a hospital. We also reimburse the costs if a transfer to a hospital becomes necessary during labour.

1.14 What do we reimburse for family and >household help?

We do not reimburse the costs for family and household help.

1.15 What do we reimburse when a child is ill and needs care?

We do not reimburse the costs of caring for a ill child.

1.16 What do we reimburse for >fertility treatment?

We do not reimburse the costs for fertility treatment.

1.17 What do we reimburse for >cryopreservation?

We do not reimburse the costs for cryopreservation.

1.18 What do we reimburse for home nursing care?

We reimburse 100% of the reasonable costs for home nursing care when

- it has been prescribed by a doctor,
- if it is provided by suitable specialist carers outside of in-patient institutions such as care homes, hospices or rehabilitation facilities and
- when a person living in the same household cannot provide adequate care and support for the insured person.

Another presuppose is that

- the nursing care should support the aim of the medical treatment (domiciliary care), or
- that treatment in hospital is required but cannot be provided, or that the provision of home nursing care prevents the need for in-patient hospital care or shortens such care (hospital avoidance care), or that
- the home nursing care is necessary due to a serious illness or due to an acute exacerbation of an illness, in particular following a stay in hospital, following an out-patient operation, or following out-patient hospital treatment (support care).

Under these prerequisites, we will

- always reimburse the costs of >medical nursing treatment,
- in the case of support care, provided that there is no need for care as defined in the healthcare insurance, and in the case of hospital avoidance care, we also reimburse the costs of >basic care and >household help. We reimburse these costs for a maximum period of 4 weeks. If the insured person requires this service for a longer period, then we must confirm the additional reimbursement in writing in advance.

Reasonable costs are at most in the amount of the generally customary local rates.

If >intensive care is provided and if this is possible both in the home environment and in a suitable facility within a radius of 50 km (e.g. nursing home or shared nursing home), then the costs of the suitable facility are deemed to be reasonable. If there are several such facilities available, then the higher costs in each case are deemed to be reasonable up to the amount actually incurred. This does not, however,

apply to intensive care in the home environment for people who have not yet reached the age of 18.

We also reimburse the reasonable costs of intensive care that is provided in in-patient facilities (e.g. nursing homes).

1.19 What do we reimburse for social paediatrics and early intervention?

We reimburse the costs for social paediatrics and early intervention in social paediatric centres up to the amount of the lump sums agreed with the statutory funding agencies.

This assumes that the insured person is not entitled to such benefits from another payer.

1.20 What do we reimburse for medical training for the chronically ill?

We reimburse the reasonable costs for participation in initial and follow-up training courses e.g. for diabetes, asthma, neurodermatitis, breast cancer or coronary heart disease.

Training is hereby defined as measures

- which are provided by providers with appropriate professional and pedagogical qualifications,
- are provided on the basis of proven and evaluated concepts and
- under suitable organisational conditions of implementation.

1.21 What do we reimburse for out-patient treatment by alternative practitioners?

We do not reimburse the costs for out-patient treatment by alternative practitioners.

1.22 What do we reimburse for specialised out-patient palliative care?

Specialised out-patient palliative care allows the insured person to be cared for in their familiar home environment or family environment, in a hospice, in a nursing home or in in-patient care facilities, when they

- suffer from an incurable, progressive or highly advanced illness,
- only have weeks or a few months to live (or years in the case of children), and
- require particularly intensive care.

We reimburse 100% of the costs up to the amount that would have to be spent for the care of an insured person in the statutory health insurance.

This presupposes that the specialist out-patient palliative care

- is prescribed by a doctor and
- the insured person is cared for by doctors and specialists in the provision of specialist out-patient palliative care.

1.23 How much do we reimburse for II.1.2 and 1.4?

1.23.1a) We reimburse 100% of the eligible costs according to II.1.1 for

- medical treatment according to II.1.2 and
- radiation diagnostics and therapy according to II.1.4,

if the treatment is carried out by the primary physician. The primary physician is considered to be the primary care physician as well as a

- ophthalmologist,
- gynaecologist,
- paediatrician without a specialisation (see Annex 4),
- emergency doctor,
- doctor on call or
- a doctor/specialist contacted via a digital service provided by us (video consultation).

Another prerequisite is that you provide us with the name of the primary care physician,

- when the insured person claims benefits from this tariff for the first time or
- changes the primary care physician.

A general practitioner or a practicing physician can be chosen as a primary care physician. By way of exception, an internist without a specialisation (see Annex 4) may be chosen as a primary care physician; however, the approval of us must be obtained for this.

In the case of treatment by emergency doctors or doctors on call, the invoice must show that the treatment was provided as part of an emergency or on-call service.

If the insured person is more than 100 km away from his/her place of residence, any general practitioner or practicing physician shall be considered as a primary care physician in the terms of this tariff,

even without having been previously named to the insurer.

1.23.1b) We will also reimburse 100% of the costs according to II.1.1 if the primary physician arranges for further treatment by the specialist after the (initial) treatment and confirms this. The confirmation must be submitted together with the first reimbursement application of invoices from the specialist.

The confirmation of the primary physician is valid until the completion of the advised further treatment, for a maximum of 6 months from the date of issue.

If the further treatment by the specialist lasts beyond this point in time, we will reimburse 100% of the eligible costs again from the point in time from which this further treatment was also advised and confirmed by the primary physician. This confirmation is then again valid until the completion of the recommended further treatment, for a maximum of 6 months from the date of issue. In case of further continuation of treatment, these regulations apply accordingly.

1.23.2 In all other cases, we will reimburse 75% of the costs according to II.1.1 for

- medical treatment according to II.1.2 and
- radiation diagnostics and therapy according to II.1.4.

2. What do we reimburse in relation to spa treatments?

In the event of spa treatment at a health resort or spa, we will provide the benefits agreed in this tariff under II.1. (out-patient treatment).

We will reimburse 100% of the costs for spa tax and spa plan.

Please note: We do not cover any additional costs e.g. the costs of accommodation and food.

3. What do we reimburse for dental services?

3.1 How do we take fee schedules into account for dental treatments?

Dental services shall be reimbursable within the framework of the German Fee Schedule for Dentists and Physicians (GOZ/GOÄ) up to their maximum rates (see Annex 1).

The costs of dental technical services and materials are reimbursable to a reasonable amount.

3.2 What do we reimburse for dental treatment?

We reimburse 100% of the costs according to II.3.1 for

- general, conservative and surgical services
- X-ray services
- treatment of oral and maxillofacial diseases
- periodontal treatments as well as
- examinations and consultations

including the respective dental technical services and materials.

The maximum benefit amounts according to II.3.7.

3.3 What do we reimburse in relation to dentures and inlays?

We reimburse 70% of the costs according to II.3.1 of metal, ceramic or plastic inlays and the costs of dentures and associated accompanying services.

Dentures are considered to be

- prostheses
- crowns, veneers
- bridges
- implants and the preparatory surgical measures that are required in this context for building up the jaw bone
- veneers
- occlusal appliances and splints (e.g. grinding splints and snoring splints)
- functional analytical and functional therapeutic measures connected with dentures and splinting, as well as
- the repair of dentures

including the respective dental technical services and materials.

The maximum benefit amounts according to II.3.7.

3.4 What do we reimburse for orthodontics?

We reimburse 70% of the costs according to II.3.1 for orthodontics including the respective dental technical services and materials.

We also reimburse functional analytical and functional therapeutic measures which are connected with orthodontics.

The maximum benefit amounts according to II.3.7.

3.5 What do we reimburse for dental prophylaxis?

We reimburse 100% of the costs according to II.3.1 for dental prophylaxis.

We will reimburse the following treatments (including the one-off consultation and examination which is executed in this context):

- for the professional tooth cleaning
 - the removal of hard plaque (tartar) and soft plaque on the surfaces of teeth and roots
 - the cleaning of the interdental spaces
 - the removal of biofilm
 - surface polishing and
 - the use of suitable fluoridation measures
- the compiling of an oral hygiene status report
- guidance for prevention on how to avert tooth decay and periodontal diseases
- monitoring of the success of practice exercises
- the sealing of fissures and
- the treatment of sensitive teeth

We reimburse the costs for a maximum of one professional dental cleanings per calendar year.

Our reimbursement

- will not be offset against a bonus or existing deductibles (refer to III.1. and 2. of this tariff) and
- will not be taken into account in the context of a ➤premium refund,

insofar as dental prophylaxis has been accounted for in accordance with our list (see Annex 3).

3.6 Do you have to provide us with a treatment plan and cost plan?

If the estimated costs of dental treatment are higher than € 2,500, the tariff benefit requires that you submit a treatment plan and cost plan (including the cost estimate of the dental laboratory) to us before the treatment. If you do not submit this to us, then you will only be entitled to half of the tariff benefit

with regard to the reimbursable costs exceeding € 2,500.

In the case of an implant or orthodontic treatment, the tariff benefit always requires that you submit the treatment plan and cost plan to us before the treatment, regardless of the cost of the treatment. Otherwise, we will only reimburse half of the tariff benefit.

We will reimburse 100% of the costs for the preparation of a treatment and cost plan that is submitted to us before the start of treatment.

3.7 What are the maximum amounts you will receive for dental treatment?

You will receive the following maximum amounts from us for the benefits according to II.3.2 to II.3.4:

total	
€ 500	in the 1st calendar year
€ 1,000	in the 1st to 2nd calendar year
€ 1,500	in the 1st to 3rd calendar year
€ 2,000	in the 1st to 4th calendar year
€ 4,000	per year from the 5th calendar year onwards

If the insured person has had an annual dental check-up in the last 5 calendar years before the start of this insurance, he/she will receive a maximum of € 4,000 per year from the 4th calendar year onwards.

The maximum amounts mentioned refer in each case to the calendar year and/or calendar years in which the treatment took place.

If the insured person has to undergo treatment due to an ➤accident, then these maximum amounts do not apply. This assumes that the accident occurred after the contract was concluded.

4. What do we reimburse in relation to in-patient ➤medical treatments?

4.1 What do we reimburse in relation to ➤general hospital benefits?

We reimburse 100% of the costs of general hospital benefits.

There are hospitals which do not charge according to the ➤Hospital Fees Act (KHEntgG) or the ➤Federal Ordinance on Nursing Fees (BPfIV). They are generally private clinics.

If the insured person is treated in such a hospital in Germany, then the most that we will reimburse is 1.5 times the costs which are specified in the KHEntgG or BPflV. We base the calculation on the standardised base rate that is used in the federal state in which the insured person has been treated.

If the insured person is treated abroad, we will reimburse the costs – including medical costs and all ancillary costs – up to 1.5 times the price of general hospital services provided in the Federal Republic of Germany, in accordance with the KHEntgG or BPflV. In this context, we refer to the applicable federal base rate/BBFW.

If the insured person is admitted to such a hospital or to a hospital abroad owing to an ➤accident or ➤emergency, then we will not limit the amount that we pay in this regard.

4.2 What do we reimburse for treatment by a ➤general practitioner?

We reimburse 100% of the costs for treatment by a general practitioner.

The separately calculated remuneration of the attending physician shall be reimbursable within the framework of the German Medical Fee Schedule (GOÄ) up to its maximum rates (see Annex 1).

4.3 What do we reimburse for services provided by attending midwives and maternity nurses?

We reimburse 100% of the costs for the services of attending midwives and attending maternity nurses. This assumes that the costs are calculated within the framework of the official fee scales.

4.4 What do we reimburse in relation to ➤rides and ➤transports?

We reimburse 100% of the costs of rides and transports to and from the nearest suitable doctor or hospital when the insured person

- has had an ➤emergency,
- is ➤unable to walk or
- there receives a chemotherapy appointment.

If the insured person is taken to a hospital in an emergency on the instructions of the rescue control center, this is deemed to be the nearest suitable hospital.

We only reimburse the transportation costs if during the journey the insured person

- needs specialist care or
- the special setting up of the means of transport owing to medical reasons.

4.5 What do we reimburse if you accompany your insured child to hospital?

We reimburse 100% of the costs of providing food and accommodation for one parent or another accompanying person in the hospital,

- providing that the child has to have in-patient treatment in the hospital, and
- the child has not yet reached the age of 16 when their stay in hospital begins.

4.6 What do we reimburse in relation to in-patient hospice care?

We reimburse 100% of the costs when the insured person has to be cared for on an (semi) in-patient basis in a hospice.

This presupposes that

- the hospice stay is prescribed by a doctor, and
- the (semi) in-patient care there is medically necessary because the palliative medical treatment (refer to II.1.21 of this tariff)
 - cannot be provided appropriately within the insured person's own home and/or within his family or
 - in a care home.

We reimburse the costs of the hospice stay

- after deducting any other payment entitlements (e.g. under a private compulsory long-term care insurance) which the insured person must make full use of
- the amount that would have to be spent for the care of an insured person from the statutory health insurance.

5. What do we reimburse for ➤digital health applications?

5.1 In the event of an insured case, we will reimburse 100% of the costs for digital health applications included in the list of digital health applications of the Federal Institute for Drugs and Medical Devices (compare with § 139e para. 1 SGB V, see Annex 5), up to a maximum of the prices stated therein.

This presupposes that

- the attending doctor or psychotherapist has prescribed the treatments or
- we have agreed to the reimbursement in writing in advance.

5.2 In the event of an insured case, we will reimburse 80% of the costs for digital health applications other than those mentioned in para. 1 up to a maximum of € 1,600 for each insured person per calendar year, if we have agreed this to you in writing in advance.

5.3 We will initially reimburse the use of digital health applications for a maximum of 12 months. After that, it must be prescribed again or agreed in writing in advance.

We may also provide the digital health applications ourselves instead of reimbursing their costs. Sentences 1 and 2 will apply correspondingly.

5.4 We will only reimburse the costs of acquiring the rights to use the digital health application. We do not reimburse any costs in connection with the use of the digital health applications, in particular for the acquisition and operation of mobile end devices or computers, including internet, electricity and battery costs.

6. When and for how long is a child co-insured free of charge from birth?

If a child is co-insured from birth in the same deductible tariff level (refer to III.2.) of the NK.select S tariff as a parent, you do not have to pay any premium for this child until he or she reaches the age of 1. You pay the premium for the child only from the beginning of the month following his or her 1st birthday.

If the insured parent is insured in tariff level NK.select S Bonus (refer to III.1.), the child will only be insured free of charge if he or she is insured in tariff level NK.select S 1200 (see III.2.).

The premium-free co-insurance requires that

- the insured parent has been insured under the NK.select S tariff for at least eight months before the birth of the child,
- the premiums for this period have been paid in full up to the date of birth,
- the child is registered retroactively no later than 2 months after birth, and

- the insurance for the child up to the age of 3 is not terminated due to a cancellation according to § 13 (1) or § 13 (5) MB/KK 2009. If the contract is terminated in accordance with these provisions, the premium liability for the first year of life shall be revived retroactively.

III. Which deductible or bonus tariff levels are available?

1. How does our bonus tariff level work?

In the NK.select S Bonus tariff level, you will receive a bonus of € 100 per insured month for each person insured there. This means that you will receive a maximum bonus of € 1,200 per year. For children and teenagers up to and including age 20, you will receive a monthly bonus of € 50, up to a maximum of € 600 per year. This presupposes that you will pay your premium by direct debit.

We will pay the bonus monthly into your account.

If you submit invoices for claims, then the entire annual bonus of € 1,200 will be credited to our benefit (600 € for children and teenagers up to and including age 20). This will also apply when the NK.select S Bonus insurance ends before the end of a calendar year.

If the insurance does not start on January 1, then the annual bonus that we count towards our reimbursement is reduced for that year by 1/12 for each uninsured month.

Benefits for which we do not offset the bonus are described in Section II respectively under the individual benefits.

2. Which deductible tariff levels are there?

In the NK.select S 600, 1200 and 3000 tariff levels, we do not provide the full benefit amounts which are described in Section II. We still however take into account a portion of our benefit which you have to pay yourself (deductible).

You have the following deductibles for each insured person in a calendar year. We deduct these from our benefit:

Tariff level	adults	children and teenagers up to and including age 20
NK.select S 600	€ 600	€ 300
NK.select S 1200	€ 1,200	€ 600
NK.select S 3000	€ 3,000	€ 1,500

If the insurance does not start on January 1 of a calendar year, then the relevant deductible for this year decreases by 1/12 for each uninsured month. If the insurance ends during the calendar year, the deductible does not decrease.

Benefits for which we do not offset the bonus for are described in Section II. respectively under the individual benefits.

IV. When do we recommend submitting cost vouchers?

We recommend that you only submit cost vouchers when the total amount is higher than your deductible or annual bonus.

You should also take into account a possible ➤ premium refund.

V. How can you additionally protect yourself abroad?

1. You can take out additional insurance for travel abroad (e.g. tariff URZ.) to cover repatriation from abroad as well as benefits for travel abroad at short notice.

2. In case of a temporary stay abroad, you can cancel the limitation to the maximum rates of general hospital services in Germany and to the German Fee Schedules (such as the Fee Schedule for Physicians/Dentists) for the duration of the stay by means of another agreement.

Within the framework of this other arrangement, we may request a reasonable premium surcharge.

We undertake to conclude this agreement if applied for within 6 months of commencement of the stay abroad at the latest. If you submit the application after the start of the stay abroad, the agreement

shall commence on the first day of the month following the application, unless you request a later start.

3. If an insured person relocates his/her habitual place of residence to a member state of the European Union, to a state of the European Economic Area or to Switzerland, the following provision shall apply instead of § 1, Part II, No. 6 of the General Terms and Conditions of Insurance.

On application, you can continue the agreement referred to in para. 2 for the duration of the habitual place of residence or agree on it for the first time - retroactively to the date of the relocation of the habitual place of residence.

You must submit the application to us at the latest within 6 months of the relocation of the habitual place of residence.

VI. When and how you can terminate your contract?

In deviation from § 13 para. 1 MB/KK 2009, you can terminate the tariff for each insured person at the end of each month. This presupposes that

- the termination is submitted at least 15 days in advance in ➤text form and
- the tariff has already existed for the insured person for at least 2 years on the date of termination.

VII. Which benefits can we adjust?

When we adjust the premiums in the NK.select S tariff, we can also change the following amounts:

- maximum amounts specified in terms of amount,
- as well as the bonus benefit according to Section III.1.

This occurs in order to maintain the value of the insurance and is only executed with the consent of the trustee.

We are also allowed to adjust the benefits and maximum prices stated in the schedule of remedies to the amended circumstances in the health care system. The conditions for this are set out in § 203 para. 3 of the Insurance Contract Act (VVG) (see Annex 3) and § 18 Part I para. 1 of the General Insurance Conditions (MB/KK 2009).

Technical terms

Here we explain the technical terms which are used in our conditions and are marked with a ➤ symbol.

Accident [Unfall]

An accident is a sudden event acting on the body from the outside, in which the insured person involuntarily suffers an injury. Examples of the most common types of accidents are falls, road accidents, and sports injuries.

Age [Alter]

We calculate the age by subtracting your year of birth from the calendar year of the start of the insurance or policy change, e.g. 2021 - 2001 = 20.

Basic care [Grundpflege]

Basic care is a service which is provided for people in need of care. It includes personal hygiene, nutrition, mobility, prevention (prophylaxis), the promotion of independence and communication.

Cryopreservation [Kryokonservierung]

Cryopreservation is the preservation of cells or tissue by freezing them in liquid nitrogen.

Digital health applications [Digitale Gesundheitsanwendungen (DiGA)]

DiGA are low-risk medical devices based on digital technologies. An example for this can be health apps.

EEA (European Economic Area) [Europäischer Wirtschaftsraum]

The EEA comprises the ➤EU and the European Free Trade Association (EFTA). The EFTA states are Iceland, Liechtenstein and Norway.

Emergency [Notfall]

An emergency is a situation which will lead to serious injury or death unless immediate medical treatment is provided.

EU (European Union) [Europäische Union]

The following states are members: Belgium, Bulgaria, Denmark, Germany, Estonia, Finland, France, Greece, Ireland, Italy, Croatia, Latvia, Lithuania, Luxembourg, Malta, the Netherlands, Austria, Poland, Portugal, Romania, Sweden, Slovakia, Slovenia, Spain, the Czech Republic, Hungary and Cyprus. Great Britain left the European Union on January 31, 2020.

Federal Ordinance on Nursing Fees [Bundespflugesatzverordnung (BPfIV)]

For public hospitals, the ➤Hospital Fee Act (Krankenhausentgeltgesetz) or BPfIV stipulates what they are allowed to charge. They do not apply to private hospitals or to hospitals which are located in other countries. The charges may be considerably higher in those cases.

Fertility treatment [Kinderwunsch-Behandlung]

Fertility treatment is hereby understood to mean artificial insemination.

General hospital benefits [Allgemeine Krankenhausleistungen]

If the hospital charges according to the ➤Hospital Fee Act (KHEntgG) or the Federal Ordinance on Nursing Fees (BPfIV), the fees specified in § 7 KHEntgG are deemed to be the costs of general hospital services. These include, for example,

- case-based payments and
- additional charges.

If the hospital does not charge according to the Hospital Fee Act (KHEntgG) or the Federal Ordinance on Nursing Fees (BPfIV), the following are deemed to be costs of general hospital services:

- the costs of a stay in a three-bed or multi-bed room (General Care Class) including,
- medical services and
- ancillary expenses.

General practitioner treatment [Belegärztliche Behandlungen]

General practitioner treatments are treatments provided by general practitioners. General practitioners within the meaning of the Hospital Fee Act (KHEntgG) are contract physicians who are not employed by the hospital. They are entitled to treat their patients in the hospital on an in-patient or day-case basis using the services, facilities and resources provided for this purpose, without receiving remuneration for this from the hospital.

Generics [Generika]

Generics are drugs that are

- similar in composition,
- and are equivalent in terms of efficacy and safety, and
- are generally offered at a lower price

than a product already on the market and registered as a trademark.

Like all other medicines, generics are examined and tested according to strict criteria before they are approved. You can find out from your pharmacist whether a generic exists for an original preparation.

German Fee Schedule for Doctors and Dentists [Gebührenordnung für Ärzte und Zahnärzte (GOÄ/GOZ)]

The Fee Schedule for Dentists (GOZ) and the Fee Schedule for Doctors (GOÄ) govern how private services provided by doctors and dentists are paid for, i.e. all medical and dental services that are not part of the statutory health insurance scheme (GKV). They set out the fees for medical and dental services.

Hospital Fee Act [Krankenhausentgeltgesetz (KHEntgG)]

In the case of public hospitals, the KHEntgG and/or the ➤Federal Ordinance on Nursing Fees determine what they are allowed to charge. They do not apply to private hospitals or to hospitals which are located in other countries. The charges may be considerably higher in those cases.

Household help [Hauswirtschaftliche Versorgung]

Household help includes all the activities necessary in order to care for and run the household of an ill person when he or she is no longer able to do this by him- or herself. This usually includes normal everyday tasks such as shopping and cooking.

Intensive nursing care [Intensiv-Behandlungspflege]

Intensive nursing care is provided if there is an especially pronounced need for medical nursing care on a long-term basis – for a minimum expected period of at least 6 months – which requires the constant presence of a suitable carer for undertaking individual monitoring and to be on call, in particular because care/treatment measures are provided which vary unpredictably in terms of their intensity and frequency both in the daytime and at night, or because the use and monitoring of a treatment device (e.g. a breathing aid) is required both in the daytime and at night.

Medical nursing treatment [Medizinische Behandlungspflege]

Medical nursing care or treatment care includes all medical activities which a general practitioner or specialist prescribes and a registered nurse carries performs. This includes, for example, wound dressings and the changing of dressings.

Medical treatment [Heilbehandlung]

Medical treatment attempts by using appropriate means to cure the illness or to heal the injury, and to alleviate it or prevent it from getting worse.

Premium refund [Beitragsrückerstattung]

Under certain conditions, we will refund up to 3 months' premiums if you have not claimed any benefits. The amount of this refund is determined annually and is not guaranteed.

**Preventive medical examinations according to programmes introduced by law that are not listed in Annex 3
[Vorsorgeuntersuchungen nach gesetzlich eingeführten Programmen, die in Anhang 3 nicht aufgeführt sind]**

By this we mean preventive medical examinations that may be included in the catalog of statutory preventive medical examinations in the future and are therefore not yet included in our list of preventive medical examinations.

**Reasonable amount (dental treatment)
[Angemessene Höhe (Zahnbehandlung)]**

The costs are based on the Bundeseinheitlichen Benennungsliste (BEB = an official list of dental technical services developed by the Association of German Dental Technicians Guilds (VDZI) and the customary local prices.

Remedies [Heilmittel]

Remedies are medical services to be provided personally and prescribed by a physician, which are intended to have a healing effect on the patient. This includes physical therapy, physiotherapy, occupational therapy and speech therapy. Please refer to the Annex to find out what we will reimburse and the amount of the reimbursement.

Rides [Fahrten]

A ride is defined as a ride that is undertaken using, for instance,

- public transport,
- a taxi, or
- a car.

Also see ➤transport.

Text form [Textform]

The text form means: In writing, but does necessitate a hand-written signature, e.g. a fax or email is sufficient.

Transports [Transporte]

Transports comes into play when the insured person is so ill or injured that they are unable to travel using their own means of transport or public transport. They need to be transported in, for instance, an ambulance.

Also see ➤rides.

Unable to walk [Gehunfähig]

This is considered to be when the insured person cannot go to the doctor or hospital independently, even with the help of an assisting device.

**Annex 1 – Maximum rates
GOÄ/GOP/GOZ**

The maximum rates of the Fee Schedule for Physicians (GOÄ) are currently 3.5 times the rate for personal medical services or 2.5 times the rate for technical medical services or 1.3 times the rate for services pursuant to Section M (laboratory services) and in accordance with Section 437 of the Fee Schedule for Physicians.

The maximum rate of the Fee Schedule for Dentists is currently 3.5 times the rate.

Annex 2 – List of remedies

This includes physical therapy, physiotherapy, occupational therapy, speech therapy, etc.

The guideline value in the terms of the list of remedies shall be the time specified for the regularly medically necessary duration of the respective therapeutic measure (standard treatment time). It includes the implementation of the therapy measure including preparation and follow-up. The standard treatment time may only be reduced for medical reasons.

	reimbursable up to €		reimbursable up to €
Physical therapy/movement-based exercises		Physiotherapeutic movement-based exercises in the exercise pool in a group in the exercise pool (2-3 persons), per participant, including the necessary rest, guideline value: 30 minutes	22.60
Initial physiotherapeutic findings for the preparation of a treatment plan	19.00	Physiotherapeutic treatment in the exercise pool in a group (2-3 persons), per participant, including the required after-rest, guideline value: 30 minutes	22.70
Physical therapy report upon written request of the prescribed person.	63.30	Manual therapy, guideline value: 30 minutes	34.20
Physiotherapeutic treatment (also on a neurophysiological basis, respiratory therapy), as individual treatment including the necessary massage, guideline value: 20 minutes	29.60	Chiropractic (functional spinal gymnastics), guideline value: 20 minutes	21.90
Physiotherapeutic treatment on a neurophysiological basis (Bobath, Vojta, Proprioceptive Neuromuscular Facilitation [PNF]) for central movement disorders acquired after reaching the age of 18 as individual treatment, guideline value: 30 minutes	44.10	Extended ambulatory physiotherapy (EAP), guideline value: 120 minutes, per treatment day (Note: This special therapy is associated with specific indications.)	124.40
Physiotherapeutic treatment on a neurophysiological basis (Bobath, Vojta) for congenital or early acquired central movement disorders as individual treatment until the age of 18, guideline value: 45 minutes	55.00	Device-supported physiotherapy (physiotherapy device), including Medical Advanced Training (MAT) and Medical Training Therapy (MTT), up to 3 persons per session for parallel individual treatment, guideline value: 60 minutes	53.20
Physiotherapy in a group (2-8 persons), guideline value: 25 minutes, per participant	12.50	Traction treatment with device (e.g. inclined bed, extension table, Perl device, sling table) as individual treatment, guideline value: 20 minutes	10.20
Physiotherapy for cerebral dysfunctions in a group (2-4 persons), guideline value: 45 minutes, per participant	16.50	Massages	
Physiotherapy (breathing therapy) for cystic fibrosis and severe bronchial diseases as individual treatment, guideline value: 60 minutes	83.20	Massages of single or multiple body parts:	
Movement-based exercises		• Classical massage therapy (CMT), segmental, periosteal, reflex zone, brush and colon massage, guideline value: 20 minutes	21.00
• as individual treatment, guideline value: 20 minutes	12.90	• Connective tissue massage, guideline value: 30 minutes	21.40
• in a group (2-5 persons), guideline value: 20 minutes	8.00	Manual lymphatic drainage (MLD)	
Physiotherapeutic treatment / movement-based exercises in the exercise pool as individual treatment, including the necessary rest, guideline value: 30 minutes	35.90	• Partial treatment, guideline value: 30 minutes	33.70
Physiotherapeutic treatment / movement-based exercises in the exercise pool in a group (4-5 persons), per participant, including the necessary rest, guideline value: 30 minutes	18.00	• Large-scale treatment, guideline value: 45 minutes	50.50
		• Full treatment, guideline value: 60 minutes	67.30
		• Compression bandaging of a limb, expenses for the necessary padding and bandaging material (e.g. gauze bandages, short-stretch bandages, flow padded bandages) shall also be reimbursable.	21.60

	reimbursable up to €
Underwater pressure jet massage, including the necessary rest, guideline value: 20 minutes	35.10
Palliative care	
Physiotherapeutic complex treatment in palliative care, guideline value: 60 minutes	75.90
Expenses for this shall be reimbursable separately, provided they are not already covered by specialized outpatient palliative care.	
Packs, hydrotherapy, baths	
Hot roll, including the necessary rest	15.70
Warm pack of one or more parts of the body, including the necessary rest	
• when using reusable packing materials (e.g. paraffin, fango-paraffin, moor paraffin, pelose, Turbatherm)	18.00
• when using single use natural peloids (healing earth, moor, natural fango, pelose, mud, silt) without using foil or fleece between skin and peloid	
• Partial packaging	41.70
• Bulk packaging	55.00
Sweat compress (e.g. "Spanish jacket", salt shirt, three-quarter compress according to Kneipp), including the necessary rest	22.70
Cold pack (partial pack)	
• Application of clay, curd cheese, etc.	11.80
• Application of single-use peloids (healing earth, moor, natural fango, pelose, mud, silt) without using foil or fleece between skin and peloid	23.40
Hay flower bag, peloid compress	14.00
Wraps, pads, compresses, etc., also with addition	7.10
Dry pack	4.80
Partial cast, partial flash cast, interchangeable part cast	4.80
Full cast, full flash cast, full interchangeable cast	7.10
Slapping, rubbing, washing up	6.30
Ascending or descending partial bath (e.g. Hauffe), including the necessary rest	18.70
Ascending or descending full bath (overheating bath), including the necessary rest	30.40
Alternating partial bath, including the necessary rest	14.00
Full alternating bath, including the necessary rest	20.30
Brush massage bath, including the necessary rest	28.90
Partial natural moor bath, including the necessary rest	49.80
Full natural moor bath, including the necessary rest	60.70

	reimbursable up to €
Sand bath, including the necessary rest	
• Partial bath	43.60
• Full bath	49.80
Balneo phototherapy (brine light phototherapy) and light-oil bath, including re-greasing and the necessary rest	49.80
Medical baths with additive	
• Hand, foot bath	10.20
• Partial bath, including the necessary rest	20.30
• Full bath, including the necessary rest	28.10
• if there are several additions, each further addition	4.80
• For partial and full baths with local natural healing waters, the maximum amounts shall be increased by € 4.80.	
Baths containing gas	
• Baths containing gas (e.g. carbonic acid bath, oxygen bath), including the necessary rest	29.60
• Gaseous bath with additive, including the necessary rest	34.20
• Gas bath with local natural healing waters and with additives, including the necessary rest	39.00
• Carbon dioxide gas bath (carbonic acid gas bath), including the necessary rest	31.90
• Radon bath, including the necessary rest	28.10
• Radon additive, 500,000 millistat each	4.80
Inhalations	
Inhalation therapy - also by means of ultrasound nebulisation	
• as single inhalation	11.70
• as room inhalation in a group, per participant	5.60
• as room inhalation in a group - but with the use of local natural healing waters, per participant	8.70
Expenses for the additives required for inhalations shall also be reimbursable separately.	
Radon inhalation in the tunnel	17.20
Radon inhalation through hoods	21.00
Cold and heat treatment	
Cold therapy of one or more body parts with local application of intensive cold in the form of ice compresses, frozen ice or gel bags, direct rubbing, cold gas and cold air with appropriate equipment as well as partial ice baths in foot or arm baths	14.90
Heat therapy using hot air (also by incandescent light, radiators, including infrared) for one or more body parts, guideline value: 20 minutes	8.70
Ultrasound heat therapy	13.80

	reimbursable up to €		reimbursable up to €
Electrotherapy		Group treatment for speech, language and voice disorders per participant	
Electrotherapy of one or more parts of the body with individually adjusted current strengths and frequencies	9.50	• Group (2 persons), guideline value: 45 minutes	65.50
Electrostimulation for paralysis	18.00	• Group (3-5 persons), guideline value: 45 minutes	39.80
Iontophoresis, phonophoresis	9.50	• Group (2 persons), guideline value: 90 minutes	119.00
Hydroelectric partial bath (two or four cell bath)	17.20	• Group (3-5 persons), guideline value: 90 minutes	64.60
Hydroelectric full bath (e.g. balvanic bath), also with additives, including the necessary rest	33.40	Expenses for preparation and follow-up work, documentation of the course of treatment, the speech therapy report for the prescribing doctor and for counselling the insured person and his or her reference persons shall not be reimbursable.	
Light therapy		Ergotherapy (Occupational therapy)	
Treatment with ultraviolet light		Functional analysis and initial consultation, including consultation and treatment planning, once per treatment case	48.10
• as individual treatment	4.80	Individual treatment	
• in a group, per participant	4.00	• for motor disorders, guideline value: 30 minutes	48.10
Irritation treatment of a circumscribed area of skin with ultraviolet light	4.80	• for sensorimotor or perceptive disorders, guideline value: 45 minutes	63.10
Treatment of irritation in several circumscribed skin areas with ultraviolet light	8.00	• for functional mental disorders, guideline value: 60 minutes	83.20
Irradiation of a field with quartz lamp pressure	9.50	Individual treatment as counseling for integration into the home and social environment in the context of a visit to the home or social environment, once per treatment case	
Irradiation of several fields with quartz lamp pressure	13.20	• for motor-functional disorders, guideline value: 120 minutes	142.50
Speech therapy (voice, speech and language therapy)		• for sensorimotor or perceptive disorders, guideline value: 120 minutes	191.90
Initial findings from voice, speech and language therapy to draw up a treatment plan, once per treatment case	124.20	• for functional mental disorders, guideline value: 120 minutes	160.10
Detailed report (except the speech therapy report for the prescribing physician)	18.00	Parallel treatment (in the presence of two persons to be treated)	
Voice, speech and language therapy needs assessment, guideline value: 30 minutes	59.90	• for motor-functional disorders, guideline value: 30 minutes, per participant	37.80
Expenses for up to two units of diagnostics (either one unit of initial diagnostics and one unit of diagnostics on demand or two units of diagnostics on demand) per calendar half-year are reimbursable within one treatment case		• for sensorimotor or perceptive disorders, guideline value: 45 minutes, per participant	51.20
Report to the prescribed person	6.70	• for functional mental disorders, guideline value: 60 minutes, per participant	63.40
Report on special request of the prescribed person	119.00	Group treatment	
Individual treatment for speech, language and voice disorders		• for functional motor disorders, guideline value: 30 minutes, per participant	18.40
• Guideline value: 30 minutes	52.90	• for sensorimotor or perceptive disorders, guideline value: 45 minutes, per participant	23.70
• Guideline value: 45 minutes	72.70	• for functional mental disorders, guideline value: 90 minutes, per participant	43.60
• Guideline value: 60 minutes	92.60	• for functional mental disorders as a stress test, guideline value: 180 minutes, per participant	80.80
• Guideline value: 90 minutes	119.00	Expenses for preparation and follow-up work, documentation of the course of treatment, the speech therapy report for the prescribing doctor and for counselling the insured person and his or her reference persons shall not be reimbursable.	

	reimbursable up to €
Brain performance training / neuropsychologically oriented individual treatment, guideline value: 30 minutes	53.20
Brain performance training, individual treatment as counseling for integration into the home and social environment in the context of a visit to the home or social environment, guideline value: 120 minutes, once per treatment case	160.10
Brain performance training as parallel treatment in the presence of two persons to be treated, guideline: 30 minutes, per participant	41.40
Brain performance training as group treatment, guideline value: 45 minutes, per participant	23.70
Podiatry	
Podological treatment (small), guideline value: 35 minutes	35.40
Podological treatment (large), guideline value: 35 minutes	50.60
Podological findings, depending on the treatment	3.50
Initial treatment with a spring steel wire orthonyxia clasp according to Ross-Fraser, one-piece, including impression and fabrication of the passive nail correction clasp according to model, application and clasp check after 1 to 2 weeks	223.80
Adjustment of the orthonyxia clasp according to Ross-Fraser, one-piece including clasp check after 1 to 2 days	43.10
Replacement with an orthonyxia brace according to Ross-Fraser, one-piece due to loss or breakage of the brace with existing model including application	74.60
Treatment with a prefabricated bilateral spring steel wire orthonyxia brace, three-part, including individual brace shaping, application and brace fit check after 1 to 2 days	86.10
Treatment with a ready-made adhesive clasp including application and clasp fit check after 1 to 2 days	43.10
Nutritional therapy	
Nutritional therapy is reimbursable as a remedy if it is provided by dieticians, oecotrophologists or nutritionists.	
Initial consultation with treatment planning, guideline value: 60 minutes	78.10
Calculation and evaluation of nutrition protocols and development of corresponding individual recommendations, guideline value: 60 minutes; expenses are reimbursable up to two times per prescription - but no more than eight times per calendar year	63.90

	reimbursable up to €
Necessary coordination of therapy with a third party; expenses are reimbursable once per prescription - but no more than four times per calendar year	63.90
Individual treatment, guideline value: 30 minutes	39.10
Group treatment, guideline value: 30 minutes	27.40
Birth preparation / pregnancy gymnastics / postpartum gymnastics	
Birth preparation/pregnancy gymnastics with group instruction (up to 10 pregnant women per group), maximum 14 hours, per lesson (60 minutes), per participant	16.50
Preparation for childbirth/pregnancy exercises as individual instruction, on doctor's orders, maximum 28 teaching units of 15 minutes each, per unit	21.40
Postpartum gymnastics with instruction in a group (up to 10 persons), maximum 10 hours, per lesson (60 minutes), per participant	16.50
Postpartum gymnastics as individual instruction, on doctor's orders, maximum 20 teaching units of 15 minutes each, per unit	21.40
Rehabilitation sports / functional training	
Rehabilitation sports in groups under medical care and supervision, per participant	
• General rehabilitation sports	7.60
• Rehabilitation sports in water	9.60
• Rehabilitation sports in heart groups	10.70
• Rehabilitation sports for severely disabled people who require increased care	14.80
For children up to the age of 14:	
• General rehabilitation sports	10.10
• Rehabilitation sports in water	14.20
• Rehabilitation sports in children's heart groups	19.60
• Rehabilitation sports for severely disabled children	19.60
Exercises to strengthen self-confidence for children and adults	14.20
Functional training in groups under expert guidance and supervision, per participant	7.60
Miscellaneous	
Home visit prescribed by doctor	14.00
Travel costs for trips of the attending person (only in the case of a doctor's prescribed home visit) when using a motor vehicle at the rate of € 0.30 per kilometre or the lowest cost of a regularly used means of transport	
If several patients are visited on the same route, medically prescribed home visits and travel expenses shall only be reimbursable proportionally per patient.	

Annex 3 – List of preventive medical checkups/vaccinations

We will reimburse the costs of preventive and checkup examinations for the early detection of diseases (cf. II.1.8 and II.3.4) and for vaccinations (cf. II.1.9) insofar as these have been invoiced in accordance with the table below. The reimbursement for this will not be offset against the respective deductible/bonus and will not be taken into account in the context of a premium refund.

This does not apply to costs for measures for purely diagnostic purposes and for further diagnostics or treatment, the need for which arises in the context of a preventive service in accordance with this list.

Digits separated by a slash "/" can be billed alternatively.

For adults

	GOÄ-digit		GOÄ-digit
Preventive checkup for men			
Urological screening			
• Anamnesis	28	• Vaginal ultrasound as screening for ovarian cancer	410, 403
• Inspection and palpation of the external genital organs		• Colposcopy	1070
• Rectal palpation for prostate examination		• Sonography breast	418, 420 (2x)
• Examination of local lymph nodes		Mammography-Screening	
• Consultation on the examination result		• targeted anamnesis	1/3

• Hepatitis C	4406
• Hepatitis A	4382
• Parvovirus	4389/4409a
• Further course examinations	
• Examination in the course of pregnancy	24
• Hemoglobin determination	3517
• Ultrasound examinations	415, 1006a
• Doppler/duplex sonographic examinations	1007a, 1008a
• First trimester screening	
• Sonography	415, 420/1006a
• Blood sampling	250
• Hormone determination β -hCG	4024
• PAPP-A	3743a
• Chorionic villus sampling (CVS)	
• Human genetic counseling	21
• Chorionic villus sampling	A1157 (1158a)
• Tokographical study	1001
• Observation/supervision during wake-up and/or recovery time.	If applicable 448/449 (for outpatient implementation)
• Sonography	410, 420 only following the procedure
• Non-invasive prenatal test (NIPT)	
• Flat rate between	430 € und 995 €
• Cost sharing if indication exists	bis 495 €
• Triple-Test	
• Blood sampling	250
• Alpha fetoprotein (AFP)	3743
• Estriol	4027
• Hormone determination β -hCG	4024
• Quadruple-Test	
• Blood sampling	250
• Alpha fetoprotein (AFP)	3743
• Estriol	4027
• Hormone determination β -hCG	4024
• Inhibin A	4069
• Antibody search test	250, 3988, 3989, 3983

	GOÄ-digit
• Screening for gestational diabetes	
• Pretest	250, 3514/3560
• Glucose drink	Material costs
• Second test	250 (several times, if necessary, depending on the number of glucose determinations)
• if only fasting value and two-hour value determined	3514/3560
• If fasting value and load values determined after 60, 120 and 180 minutes	3613
Preventive checkup for men and woman	
Colorectal cancer screening	
• Counseling on the goal and purpose of the colorectal cancer screening program	1/3, 7, 11
• Consultation on the examination result	
• Test for invisible (occult) blood in stool alternative	3735a/3736a/ 3650a
• Colonoscopy	687, 5298a, 451/452, 602, 3550, 3946 (pTT), 3960 (Quick) regarding possible trial excisions
preparatory medication, analgesics, analgosedation	Material costs
Early skin cancer detection	
• Anamnesis	1
• Consultation on the examination result	
• Examination of the entire skin	7, 750/612a
Early detection of osteoporosis	
• Consultation/Anamnesis	1/3
• Osteodensitometry	5380/5475
• Ultrasound examination	410
Early detection of cardiovascular diseases, diabetes	
• Taking a medical history and creating a risk profile	29
• Physical examination	
• Blood pressure measurement	
• Consultation on the examination result	
• Blood sampling	250
• Cholesterol and blood sugar control	3562.H1, 3560
• Urine control	3511

	GOÄ-digit
• Blood count and blood count components and other laboratory values	3550, 3551, 3561, 3563.H1, 3564.H1, 3741, 3501, 3908.H3, maximum value according to 3541.H fort he examinations marked H1
• Sonography	410, 420 (3x), 401, 403
• EKG	651/652
Early detection of kidney disease	
• Blood sampling	250
• Urine control	3511/3531/3583H1
• Creatinine	3585H1
• Sonography	410/420
Screening for hepatitis B and C (one time from 35 years)	
• Blood sampling	250
• HBs antigen	4643
• Antibodies against hepatitis C virus	4406/4393

For children and teenagers

	GOÄ-digit
Special early detection examinations as part of the statutory child screening programs	
Expanded newborn screening	
• Blood sampling	250a
• Hypothyroidism	4030
• Adrenogenital syndrome (AGS)	4035
• Biotinidase deficiency	3776a/3789
• Galactosemia	3776a/3790/3724a
• Phenylketonuria (PKU) and hyperphenylalaninemia (HPA)	4078a, 4079 (multiple if necessary)
• Maple syrup disease (MSUD)	
• Medium-Chain-Acyl-CoA-Dehydrogenase deficiency (MCAD)	
• Long-Chain-3-OH-Acyl-CoA-Dehydrogenase deficiency (LCHAD)	
• Very-Long-Chain-Acyl-CoA-Dehydrogenase deficiency (VLCAD)	
• Carnitine cycle defects	
• Glutaraciduria type I (GA I)	
• Isovalerianacidemia (IVA)	
• Tyrosinemia type I	oder 4210a
Cystic Fibrosis Screening	
• Blood sampling	250
• Trypsin	3796
• PAP	3796a
Hip screening	
• Sonography of the hip joints	413
• Surcharge duplex process	401
Hearing screening	
• Measurement of otoacoustic emissions	1409
• Pulse oximetry screening for the detection of heart defects	602
Child/teenage screening	
Newborn initial examination U1	
• Newborn initial examination	25
• Surcharge for children up to 4 years of age	K1
Child/teenage examination U2-U12, J1 and J2	
• Examination for the early detection of diseases in children up to the age of 14.	26/26a (for J2)
• Surcharge for children up to 4 years of age	K1 (until the corresponding age)

Dental prophylactic services

	GOZ-digit
• Removal of hard and soft plaque on tooth and root surfaces / cleaning of interdental spaces / removal of bio-film / surface polishing / application of appropriate fluoridation measures (professional tooth cleaning)	1040, 4050, 4055
• Preparation of oral hygiene status and in-depth instruction for the prevention of caries and periodontal diseases.	1000
• Control of the exercise success including further instructions	1010
• Sealing fissures	2000
• Treatment of hypersensitive teeth	2010
• In-depth examination to identify dental, oral and maxillofacial diseases, including periodontal assessment and recording of the findings.	0010
• Local fluoridation to improve tooth structure, for caries prevention and treatment, with varnish or gel, per session	1020
• Consultation also by phone	GOÄ-digit 1

Vaccinations according to STIKO

	GOÄ-digit
• Intramuscular or subcutaneous vaccination, including entry in the vaccination record, consultation	375, 1
• Oral vaccination, including consultative interview	376
• Additional injection for parallel vaccination	377
• Simultaneous vaccination (simultaneous passive and active vaccination against tetanus).	378
• Vaccine	

Annex 4 - Specialty designations

Specialty designations are:

- for pediatricians e.g. pediatric cardiology, neonatology,
- for internal medicine specialists e.g. angiology, endocrinology, gastroenterology, hematology, internal oncology, cardiology, nephrology, pneumology, rheumatology

Annex 5 – Legislative texts

Insurance Agreement Act [Versicherungsvertragsgesetz, VVG]

§ 203 Adjustment of premiums and conditions

(3) If, in the case of health insurance in the terms of Paragraph 1, Sentence 1, the insurer's routine right of termination is excluded by law or contract, the insurer shall be entitled, in the event of a change in the conditions of the health care system which is not to be regarded as merely temporary, to adjust the General Terms and Conditions of Insurance and the rate provisions to the changed conditions, if the changes appear necessary to adequately safeguard the interests of the policyholders and an independent trustee has examined the prerequisites for the changes and confirmed their appropriateness.

Social Security Act, Fifth Book [Sozialgesetzbuch; SGB]

§ 139e Directory for digital health applications; authorisation to prescribe

(1) The Federal Institute for Medication and Medical Devices will maintain a list of reimbursable digital health applications in accordance with § 33a. The directory will be structured according to groups of digital health applications which are comparable in their functions and areas of application. The Federal Institute for Medication and Medical Devices will publish the list and any amendments thereto in the Federal Gazette and on the Internet.
